

## **It's Here**

© 2007 Peoples Collective Publishing

Mermaids are coming  
The fairy 's broken  
The books are calling back to me

The fans are blowing  
A butterfly is glowing  
Angel plate it up for me

Icicles are hanging  
A Fantastic saying  
A Picture on the wall speaks it to me

*Chorus*  
*It's here nowhere else like here*  
*It's here nowhere else like here*

Green plants not growing  
Colored bottles are showing  
The looking glass looks back at me

The beads are hanging  
Raindrops are swinging  
Crystallize and form on me

The wall is holding  
Creatures unfolding  
Glassy colors shine one me

Treasures from travels  
The story unravels  
Pictures reflect back on me

It's where I live now  
You have to somehow  
Take a trip through the kitchen with me

*Chorus*
