Don't fight it let yourself reach out and take it  
Desire follow lead it's all the same  
Lasting feeling get you movin' have you playin'  
Mamma's calling you got to get on home, yeah get on home

Capture time enhance the beauty with the mind  
Feeling strong grabbing hold the key to soul  
Swimming thoughts whirl around go to space  
Seek and find rhymes they come in time, they come in time

Life's a puzzle indeed it's hard to find the pieces  
Get it together you always find something missing  
Preach to tell say how to do it  
Make the rules the game is on your own, it's on you own

Signing papers holding fortune grabbing fame  
Going faster keys in hand to ride the way  
The sun is moving ray's spreading blinding light  
Dreams fall cascading into the hole, into the hole

*Into the hole*
