A sleeping pill to make us forgetful
Forgetful of reality
Freedom from danger or risk
To our own life and limb

And of the other, and of the other

Battles waged by each of us
Against incorporated rules and policies
Understand agree to comply
Inspector measure the degree

And of the other, and of the other
Dialectic, conflicted, superstitious, infected,
humanistic, expressive, well competition 's expected
And of the other, and of the other

Careless men never are efficient
Careless men may lose control
May lose control

Of the common habit of working
To recognize responsibility
Supervision and instruction
Suggest and hesitate attention

And of the other, and of the other
Dialectic, conflicted, superstitious, infected,
humanistic, expressive, well competition 's expected
And of the other, and of the other
